

Terry A. Cruse

Argonne National Laboratory
9700 South Cass Avenue, Bldg. 205
Argonne, IL 60439-4837
phone: 630/252-6043
fax: 630/252-4176
e-mail: cruse@cmt.anl.gov

Professional Experience

- Development of metallic-based materials for solid oxide fuel cell interconnect applications
- Testing of solid oxide fuel cell materials, single cells, and materials interactions
- Development of processing techniques for the production of novel solid oxide fuel cells
- Development of processing techniques and testing of fibrous monolithic ceramics

Professional Society Activities

- American Ceramic Society
- ASM International
- AMPI International

Education

- PhD, Metallurgical Engineering, University of Missouri-Rolla
- MS, Materials Science and Engineering, University of Florida
- BS, Ceramic Engineering, University of Missouri-Rolla
